

San_Diego_County_GRP_Analysis_2019_2023.pdf

The Gross Regional Product (GRP) of San Diego County has shown a remarkable trajectory from 2019 to 2023. In 2019, the total GRP stood at approximately \$244.28 billion. Over the next few years, this figure experienced a steady increase, reaching about \$308.71 billion by 2023. This growth represents a significant increase of approximately 26.4% over the five-year period. Despite a slight decrease in population from 3,330,458 in 2019 to 3,252,468 in 2023, the GRP per capita saw a substantial rise. Starting at \$73,346.92 in 2019, the GRP per capita climbed to \$94,915.87 in 2023, marking an impressive growth of approximately 29.4%. This increase in GRP per capita suggests that the economic output per individual in San Diego County has improved considerably, indicating enhanced productivity and economic conditions in the region.

Year	Total GRP (USD)	Population	GRP per Capita (USD)
2019	244,278,846,457.50	3,330,458	73,346.92
2020	244,822,303,264.04	3,296,045	74,277.60
2021	268,873,550,391.04	3,274,954	82,099.95
2022	296,683,894,891.99	3,276,208	90,557.10
2023	308,710,843,090.86	3,252,468	94,915.87
